

## “present, train and collaborate online - anytime, anywhere”

Petros Khalesirad from Ultimate IT has mixed the use of several technology solutions to bring to you his new innovative style of boardroom; the e room. With the correct combination of computer hardware and software, the e room turns the traditional boardroom into an “out of this world” experience.

Imagine this... you step in to a room, you sit down and you collaborate with anyone, anywhere, anytime. It could be for a meeting, a presentation or even training, the e room brings people together virtually.

With the use of the e room, there is no need to spend hundreds of dollars in travel and lose precious productive time getting from one place to another. The e room gets everyone together in a matter of minutes, no matter where they are on Earth and as long as they have a suitable internet connection.

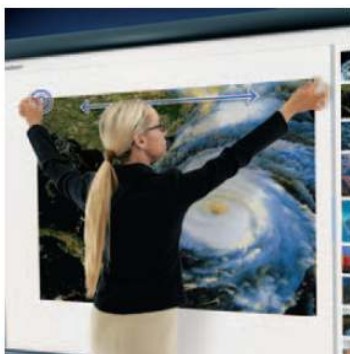

The three main uses for the e room are;

- e-meeting or meeting
- e-training or training
- e-presentation or presentation

As soon as you walk into the e room, the entire experience can be taken online. The meeting organiser who is sitting in the e room creates the meeting space from the desktop. Attendees are then invited to join the private online meeting. Within moments, the computers securely join each other and the experience begins.

### Key Benefits of using the e room

- Do more, travel less
- Increase productivity by improving your presentation and collaboration capability
- Significantly reduce travel and operational costs
- No need to install software for those attending the meeting – it just works!

## What the e room has to offer

- Interactive whiteboard technology so versatile you can use either an electronic pen or finger.
- Powerful desktop computer powered by Lenovo.
- 2 x Telstra high speed ADSL 2 Internet connections.
- Telephone conferencing via “Telstra Conferencing”.
- Private incoming phone line.
- 24 hour access.
- Dolby 5.1 surround sound powered by ONKYO, Klipsch and Monster.
- Pioneer DVD player with WMA/MP3 and photo viewer playback.
- Digital High Definition television receiver.
- Nintendo Wii gaming console - the perfect way to have a break in a meeting.
- Laser Printer.
- Meeting lighting, feature lighting and natural lighting options.
- Boardroom table for up to 8 people.
- Trainer’s table - perfect for the trainer delivering online training.
- Stylish presenters table – great for presentations to a captive audience.
- Catering services provided by “The Wild Parrot” and CQ Party Hire.
- Mini bar fridge.
- Access to toilets and amenities 24 hours a day.

## Online meeting features of the e room

- Desktop Viewing — Broadcast a view of your PC or Mac desktop to meeting attendees for presentations or collaboration. Show others any application or file on your computer.
- One-Click Meetings — Start instant meetings with a single click using our integrated Meet Now buttons.
- Specific Application Sharing — Share only the application you choose, helping to avoid distractions and protect your privacy.
- Share Keyboard and Mouse Control — Seamlessly transfer control of the presenter’s keyboard and mouse to other users.
- Instantly Change Presenters — Easily view other attendees’ desktops by switching presenters on the fly.
- Drawing Tools — Draw, highlight or point to items right on the screen.
- Easy Integration — Start or join meetings through Microsoft® Outlook®, Microsoft Office®, IBM® Lotus Notes® or instant-messaging applications.
- Mac® Support — Mac users can host and join and view sessions.
- Recording and Playback — Save a meeting locally to review or share later.
- Total Audio — Choose integrated phone conferencing, VoIP, both or provide your own number.
- The most secure online meeting product available using industry standard SSL and US government standard 128-bit AES encryption ensuring your meeting sessions are always secure.
